## BOREK PARASOLS | OUTDOOR FURNITURE

The family-owned company Borek, specializing in parasols and outdoor furniture, embraces three unique brands. Borek (1977) is synonymous with understated chic design, Max & Luuk (2013) embodies youthful innovation with exquisite materials, and YOI outdoor furniture (since 2019) embraces the latest trends with contemporary designs and ultimate comfort.

In 2024, we are introducing a range of masterfully designed collections that not only showcase craftsmanship but also embrace the latest trends in high-end design.

The Sori chair series, internally designed by Studio Borek, epitomizes elegance and comfort with organic shapes, Ardenza rope, and an earthy color palette. From dining chair to lounge chair, they blend style and functionality, featuring a modern seat cushion that emphasizes comfort without compromising the sleek design. In the same white-taupe color, we introduce the Rapallo sofa and lounge chair with an innovative braiding technique in a contemporary design.

A promising newcomer is the Pitelli chair, adding a rugged character with a taupe leather-look wire that is both trendy and durable.

In the dining table collection, we present a new grandeur designed by Frans van Rens: the Fedde table, a T-shaped masterpiece with soft lines and a choice of new ceramic tabletop shades Marmorio and Grigio.

And because outdoor living is not complete without shelter, we introduce the new Santo umbrellas, including a variant in a unique size of four by three meters, providing shade for xl dining setups.

I warmly invite you to discover the summit of outdoor furniture.

Welcome to Borek parasols | outdoor furniture.

Frank Bogaers

A handwritten signature in light blue ink, appearing to read 'Frank Bogaers', with a long horizontal stroke extending to the right.

## **COLOUR OVERVIEW & PRICELIST PRATO (DECORATIVE) CUSHIONS & POUFFES**

Prato is a textured linen look outdoor fabric with a soft touch. The polypropylene material is resistant to fungus and bacteria. It is very high UV-resistant and has excellent light fastness. Prato is non-absorbent and withstands water from swimming pools and seawater.

Maintenance advice: We advise using Borek Fabric Cleaner to clean the fabric. After cleaning, the fabric can be given extra protection using Borek Fabric Protector.

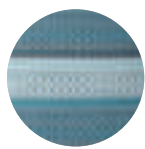

In the pricelist you can see which cushions are standard available for each product. Other colours/fabrics are available to order for a surcharge.

## COLOUR OVERVIEW & PRICELIST PRATO POUFFES

### PRATO ALL WEATHER

The Prato fabrics used by Borek for all weather cushions & pouffes are particularly suitable for outdoor use. The fabrics are dyed completely and treated with a water and dirt repellent coating. These exclusive fabrics are stitched with special yarns, making it virtually impossible for water to penetrate to the filling. The comfortable filling is also provided with an almost waterproof and breathable cover, designed specially for Borek. These materials make it possible for you to store your cushions outdoors throughout the season, but of course you don't have to do this. To protect your cushions from dirt, it is advisable to store your cushions in a clean, dry place. You can also use Borek protection covers.

The following lounge collections are delivered with Prato all weather cushions as standard: Altea/Barrel/Bassano/Cadiz/Calcara/Chepri/Coimbra/Deauville/Estoril/Faro/Hybrid/Key/Levante/Lincoln/Milano/Morella/Murcia/Nido/Ovar/Rapallo/Ribbon/Santa Cruz/Savona/Sevilla/Softline/Tavira/Vigo/Viking/Vitoria

All other cushions are also available in all weather fabric for a surcharge.

## COLOUR OVERVIEW & PRICELIST SUNBRELLA® DECORATIVE/ROLL CUSHIONS & POUFFES

### SUNBRELLA® ALL WEATHER

The Sunbrella® fabrics used by Borek for all weather cushions & pouffes are particularly suitable for outdoor use. The fabrics are dyed completely and treated with a water and dirt repellent coating. These exclusive fabrics are stitched with special yarns, making it virtually impossible for water to penetrate to the filling. The comfortable filling is also provided with an almost waterproof and breathable cover, designed specially for Borek. These materials make it possible for you to store your cushions outdoors throughout the season, but of course you don't have to do this. To protect your cushions from dirt, it is advisable to store your cushions in a clean, dry place. You can also use Borek protective covers.

The following lounge collections are delivered with Sunbrella® all weather cushions as standard: Cadiz/Calcara/Lincoln/Majinto/Monsaraz/Murcia/Pasturo/Valldemossa/Viking/Vitoria.

All other cushions are also available in all weather fabric for a surcharge.

## **MATERIAL & MAINTENANCE**

### **ROPE**

#### **ARDENZA ROPE**

The Ardenza rope is made from a thermoplastic synthetic rope. The material is coloured right through its core, it is waterproof, UV-resistant and antifungal. The Borek Ardenza rope is resistant to temperature variations from -40 to +80 degrees Celsius.

#### **MAINTENANCE ADVICE**

Borek Ardenza rope can be cleaned with Borek Fabric Cleaner. After cleaning it is possible to protect the material with Borek Fabric Protector.

#### **POWDER COATED ALUMINIUM & POWDER COATED GALVANISED STEEL**

Fluidized powder coating applied to the aluminium or galvanised steel structure by electrostatic spray. To ensure the solidity and resistance of the powder coating, the complete structure is stoved at a temperature of about 180° degrees Celsius. These materials are fabricated to endure rigorous outdoor conditions such as sunlight UV-exposure and extreme temperatures variances.

#### **MAINTENANCE ADVICE**

To clean and maintain with Borek Multi Cleaner.

## **MATERIAL & MAINTENANCE**

### **BELT**

#### **ARDENZA BELT**

Ardenza belt is developed exclusive for Borek. The material is coloured right through its core, it is UV-resistant and colourfast. Borek Ardenza belt is protected with a unique environmentally friendly coating, is water repellent and antifungal.

#### **MAINTENANCE ADVICE**

To clean the Borek Ardenza belt, we recommend Borek Fabric Cleaner. After cleaning it is possible to protect the material with Borek Fabric Protector.

#### **POWDER COATED ALUMINIUM & POWDER COATED GALVANISED STEEL**

Fluidized powder coating applied to the aluminium or galvanised steel structure by electrostatic spray. To ensure the solidity and resistance of the powder coating, the complete structure is stoved at a temperature of about 180° degrees Celsius. These materials are fabricated to endure rigorous outdoor conditions such as sunlight UV-exposure and extreme temperatures variances.

#### **MAINTENANCE ADVICE**

To clean and maintain with Borek Multi Cleaner.

Tarifa coffee table

A close-up photograph of a light-colored wooden chair leg. The leg is angled downwards and to the left. The word "BOREK" is engraved in a simple, sans-serif font on the side of the leg. At the top of the leg, a thick, grey, braided rope is wrapped around it, secured by a small black metal fastener. The background is a blurred outdoor setting with a concrete floor and a light-colored wall.

BOREK

## MATERIAL & MAINTENANCE

### TEAK

#### **TEAK**

Borek uses only mature carefully selected teakwood, all of it harvested in the accordance with our environmental policies. Teak wood comes from the Tectona Grandis. The wood's renowned durability is due to its high content of natural oils. The limited absorption of moisture protects the wood from warping and therefore gives the wood its enormous stability under the effect of UV-radiation, chlorine and sea water. It is possible that small cracks appear in the furniture but this is a natural working process of wood. Untreated teakwood will eventually fade to a greyish colour. The unique wood joint of some products may show widening due to weather influences. This is a natural process that might occur in this collection. Tables 220cm or longer may begin to sag.

#### **RECLAIMED TEAK**

Reclaimed teak is (semi) handmade out of old recycled teak wood. We got it by searching on various areas in Java. The reclaimed teak we use is what we got from old houses, buildings, bridges, boats, etcetera. Purchasing this product means accepting cracks and bursts, an irregular surface, a different wood structure, and the fact that wood works. The simplicity of nature itself. Teakwood is a close-grain and oil-rich hardwood and is especially stable in its recycled form. Therefore it is the ideal material to produce long-lasting outdoor furniture. The wood has been used before, so has some unique characteristics: we need to use patches in the wood and the wood contains materials that have entered (for example nails). These may cause rust, which may stain in the product itself or cause sedimentation on the floor. The furniture will legstially show stains during aging. This includes minor black spots that occur where nails or bolts were left in the furniture. This will not damage the quality of the wood itself. Wood is a natural product and is subject to external influences. Cracks and change of colour are physical facts to be expected. Each piece will age differently and each piece will develop its own unique character. Left outdoor, reclaimed teak will develop a grey patina. Tables/benches 220cm or longer may begin to sag.

#### **MAINTENANCE ADVICE**

We advise to clean teak a few times a year with Borek Teak Cleaner which cleans teak and restores its clean and sturdy appearance. Borek Teak Protector saturates teak to make it impenetrable for liquids and dirt. To maintain the natural, golden brown colour of teak and restore greyed teak to its natural colour, you have to use Borek Teak Sealer. Borek Teak Sealer is not recommended for reclaimed teak (Cadiz, Sevilla, Tarifa & Parga).

A close-up photograph of a modern sofa's corner. The sofa has a light grey, textured fabric. The base is a dark grey, possibly metal or plastic, with a curved design. The word "BOREK" is printed in a light, sans-serif font on the dark grey base. The background is a light-colored, textured surface, likely a carpet or rug.

BOREK

## **MATERIAL & MAINTENANCE**

### ALUMINIUM

#### **POWDER COATED ALUMINIUM & POWDER COATED STAINLESS STEEL**

Fluidized powder coating applied to the aluminium or stainless steel structure by electrostatic spray. To ensure the solidity and resistance of the powder coating, the complete structure is stoved at a temperature of about 180° degrees Celsius. The materials are fabricated to endure rigorous outdoor conditions such as sunlight UV-exposure and extreme temperatures variances.

#### **MAINTENANCE ADVICE:**

To clean and maintain with Borek Multi Cleaner.

#### **DEKTON®**

A unique material that looks and feels like natural stone but with advanced properties. Dekton® consists of sophisticated raw materials used in the production of glass, porcelanic and quartz surfaces. With a new production process, involving high temperatures and extreme pressure, the origin of natural stone is simulated. The result is a slab material that is ideally suited for outdoor furniture. Dekton® is UV, scratch, stain,- and heat resistant and resistant to ice and thawing. It is an innovative and durable product of top quality, carefully processed into a personalised custom design.

#### **MAINTENANCE ADVICE**

To clean with Borek Multi Cleaner.

## MATERIAL & MAINTENANCE

### PROTECTION COVERS

#### PROTECTION COVERS FURNITURE

Borek protection covers are UV-resistant and antifungal. They can be used to protect furniture frames throughout the year. Protection covers can also be tailor-made.

Material: pvc coated polyester fabric.

Colour: combination of grey and anthracite.

#### MAINTENANCE ADVICE

Please note: The use of the covers to protect furniture **together** with cushions is only recommended during the summer season.

Covers can be cleaned with a mild detergent and a soft sponge.

### TEAK CLEANER

S10

Cleans and brightens weathered teak in one simple step.

59,-

### TEAK SEALER

S11

Retains golden-brown colour of teak. Fast and easy to apply. Resistant to mould and prevents the formation of black spots.

69,-

### TEAK PROTECTOR

S12

Repels water and moisture. Prevents stains from food and drinks. Use on weathered teak to retain silver-grey patina.

69,-

### FABRIC CLEANER

S30

Cleans stains from different fabrics. Suitable for the covers of cushions and parasols and for Ardenza and Campania rope.

59,-

### MULTI CLEANER

S40

Cleans the materials: fibre, Batyline, Sun Loom, woven Batyline, Textilene, aluminium, Dekton, Caesarstone, glass and Compact.

59,-

### FABRIC PROTECTOR

S31

Makes different fabrics water-repellent and resists stains.

69,-

### STAINLESS STEEL CLEANER & POLISHER

S20

Cleans and restores the new look of stainless steel furniture. Makes stainless steel repellent to dirt and water.

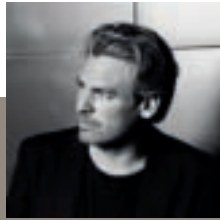

59,-

## MEET OUR DESIGNERS

**BERTRAM BEERBAUM**

Enjoying design, that's what Bertram Beerbaum wants to convey to people. In collaboration with Borek, an outdoor furniture line has been developed that boldly combines design, pleasure, and functionality, allowing you to enjoy outdoor living in a stylish and comfortable manner.

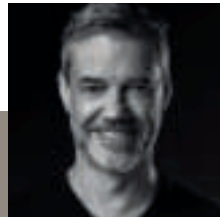

**MENEGHELLO PAOLELLI**

Meneghello Paoelli are Italian product designers. They aim for innovation, both in concept and aesthetics, but this has never been the goal in itself. "Anchoring innovation to concrete needs, functionality, beauty, and quality: that is the mission."

**FRANS VAN RENS**

In his designs for Borek, Frans van Rens aims for the ultimate experience of comfort, beauty, and quality, allowing you to fully enjoy outdoor living.

**BOB MANDERS**

In the designs for both homes and furniture pieces, the actual use is always paramount for Bob Manders. "An object can be as beautiful as can be, but if it doesn't function well and bring joy in use, it is worthless."

**ERIC KUSTER**

Borek has truly enlisted a top designer in Eric Kuster. His exquisite designs can be found worldwide and exude unparalleled allure. Eric Kuster excels like no other in infusing a sense of unparalleled luxury into his designs.

**MARCEL WOLTERINCK**

From Wolterinck's World, his store in North Holland, he ensures that spaces undergo the Wolterinck metamorphosis both domestically and internationally. Always based on tranquility, rhythm, and symmetry. His use of color is subdued, and his materials are pure. He always seeks to connect the 'inside' with the 'outside'.

**STUDIO BOREK**

Studio Borek is our in-house design agency with over 40 years of experience in the outdoor furniture industry. Designers who prioritize both design, comfort, and functionality and have proven to be success factors in outdoor furniture. The innovative designs form the basis for high-end collections and are closely followed both nationally and internationally. A Studio Borek design is not only trendy but also timeless.

**HUGO DE RUITER**

Hugo de Ruiter considers furniture as a third skin. Similar to well-fitted clothing, furniture should sit well and suit you. Your interior and terrace arrangement become a characterful signature of who you are.

**MAARTEN OLDEN**

Maarten Olden designs high-quality lounge furniture for Borek. The furniture is the result of a continuous and critical design process, from the initial concept to completion.

**JAN WILLEM VAN ELTEN**

As a product designer, Jan Willem van Elten aims for an accessible design with its own identity. He also describes it as 'a people-friendly design with character.'
